Exam : **1Z1-202**

Title : **Siebel 8 Consultant Exam**

Version : **Demo**

1. You are considering using the ATTRIB_02 column on the S_SRV_REQ_X table and you want to determine which, if any, business component field is already using this column. What would you do?
- A. Use Search Repository, select Column as the Type and enter ATTRIB_02 as the value.
 - B. Use the Flat tab, select the Field type, and search the Column property for ATTRIB_02 and the Join property for S_SRV_REQ_X
 - C. Use the Flat tab, select the Column type, and search the Name property for ATTRIB_02.
 - D. Use the Types tab, search for Service* business components, inspect each of their Single Value Fields.
 - E. Use the Types tab, select the Service Request business component, then Single Value Field, and search the Column property for ATTRIB_02.

Answer: B

2. You have been asked to create a multi-value group for contacts phone numbers. What should your first step in this configuration be?
- A. Create a new business component to store these phone numbers.
 - B. Determine which column on the base table you can use to store these phone numbers.
 - C. Determine which column on the one-to-many extension table you can use to store these phone numbers.
 - D. Run the MVG Wizard in Siebel Tools, specify the business component, and have it automatically select the appropriate column.
 - E. Examine the existing application to determine whether there is already a multi-value group you could leverage to store phone numbers.

Answer: E
